

[external frame](#)Our central AC repair service covers all aspects, from diagnosing refrigerant leaks to fixing compressor issues and faulty electrical components. We ensure that your central air conditioning system operates efficiently and reliably.(Image: <https://media.defense.gov/2016/Jul/11/2001570649/2000/2000/0/160627-F-DM793-016.JPG>) When you start to notice this, you need one of our expert HVAC technicians to look at it. If you start to notice banging sounds coming from your AC system, this could possibly be the result of a loose or broken part. If you notice a particularly annoying buzzing sound coming from your air conditioner, this could mean a few different things.(Image: <https://media.defense.gov/2017/Jan/26/2001691126/-1/-1/0/170112-F-AM897-018.JPG>)
