

[external page](#) The “Power Cutter” has two angled blades articulated on a screw or pin at the center with a finger ring at each finish. One finger ring is for the consumer's thumb and the other finger ring is for a number of fingers. In response to the submitted literature, the [“Wood Ranger Power Shears website Cutter”](#) is a multi-purpose cutter which allows the consumer to chop quite a few things such as: poultry components, carpet, linoleum, screening sheet metal, plastic, rubber, wire, [Wood Ranger shears](#) or silk. The packaging for the [“Wood Ranger Power Shears shop Cutter”](#) also indicates that it's in a position to chop a penny in half, prune plants, and minimize an aluminum can. The merchandise was entered underneath subheading 8203.30.00, HTSUS, as steel chopping shears. The entry was liquidated beneath subheading 8213.00.90, HTSUS, as scissors and comparable shears. 8203.30.00: Files, rasps, pliers (together with cutting pliers), tweezers, metallic chopping [Wood Ranger shears](#), pipe cutters, bolt cutters, perforating punches and comparable handtools. Goods classifiable beneath this provision have a general, column one charge of responsibility of 4.2 % ad valorem.

8213.00.Ninety Scissors, tailors' shears and similar shears, and blades . 0.10 every plus 10 percent ad valorem. Is the “Power Cutter” classifiable as metal slicing shears or as different scissors underneath the HTSUS? Classification of merchandise beneath the HTSUS is in accordance with the final Rules of Interpretation (GRI's), taken so as. GRI 1 provides that classification shall be determined in keeping with the terms of the headings and any relative part or chapter notes. The Harmonized Commodity Description and Coding System Explanatory Notes (EN) represent the Customs Cooperation Council's official interpretation of the HTSUS. While not legally binding, electric [Wood Ranger Power Shears website](#) shears the ENs provide a commentary on the scope of every heading of the HTSUS and are usually indicative of the correct interpretation of those headings. See T.D. 89-80, fifty four Fed.Reg. The scissors classified in this heading include two superimposed blades, sometimes serrated, articulated on a screw or pin close to the center. Generally, the heading covers only those scissors by which every blade is fitted, at one end, with a finger ring.

The blades could also be in a single piece, consist of jointed chopping blades and handles. Customs has beforehand labeled multi-purpose shears, able to reducing through metal, plastic, cardboard, and so on., in NY 886243, dated June 13, 1993. In NY 886243, the world Director of the new York Seaport decided that the multi-function shears, having angled blades and huge plastic ring handles, [Wood Ranger Power Shears](#) specs have been classifiable underneath subheading 8213.00.90, HTSUS, which gives for [Wood Ranger shears](#) other scissors and comparable shears. The [“Wood Ranger Power Shears coupon Cutter”](#) is similar to the multi-function shears which had been categorised in NY 886243 as a result of both cutters have angled blades and large ring handles. We discover that the “Power Cutter” meets the description of scissors in EN 82.13, and is classifiable beneath subheading 8213.00.90, HTSUS, which gives for other scissors and comparable shears. The protestant argues that the “Power Cutter” is a utility software because it is used to cut sheet steel, plastic, carpet, flooring and different related items. However, there isn't a HTSUS provision for “utility instruments”.

[external site](#) Because the “Power Cutter” can cut steel, the protestant believes that it's greater than a scissor and ought to be categorised below subheading 8203.30.00, HTSUS, as metal slicing shears. Heading 8203, HTSUS, gives for plier-type of shears used for reducing metal. The “Power Cutter” isn't a plier-type of shears and is able to slicing extra than just steel. It is also capable of chopping numerous issues similar to: poultry components, carpet, linoleum, plastic, rubber, wire, silk. Because the “Power Cutter” meets the description of scissors and doesn't lower only metal, we discover that it's not the type of shears coated underneath heading 8203, HTSUS. The protest is DENIED. Any reliquidation of the entry in accordance with the decision have to be achieved previous to mailing of the choice. Sixty days from the date of the decision the Office of Regulations and Rulings will take steps to make the choice out there to Customs personnel through the Customs Rulings Module in ACS and the public via the Diskette Subscription Service, Lexis, Freedom of information Act and other public entry channels.
