

An online slot machine payout schedule lists almost all possible returns and their probability. A slot machine that pays at the same rate every single coin bet is referred to as straight machinery. What this means is in case the maximum payout on a single coin bet is eight hundred coins, a two coin bet will pay 1,600 coins and a three coin bet will pay 2,400 loose change. In the sample payout schedule, if the coin size were 24 cents, a three coin bet would pay \$600 and a \$1 coin size would pay \$2,400 for a 3 coin bet. This example originates from a balanced payout schedule. More often if possible see payout schedules that pay higher amounts when the maximum coins are played.
