Ever outgrow a pair of pants, but just don't have the heart to give them away? Or maybe there's a pair that's been hanging out in the back of your closet for so long that current trends have left them behind, even though you can't seem to do that just yet. It's an inevitable aspect of life that many items of clothes are meant to spend only a few short years in your closet. Luckily, there are ways to hold on to those treasured trousers and use them for other means in your life. Recycled pants crafts have been a common trend for arts and crafts lovers for a while now, but the need to recycle a favored piece of clothing is now becoming a more common occurrence for the average person. In the recent boom in sustainability and recycling, using old clothes to make unique items has hit the market and spawned numerous advocacy groups. Though you might find your time limited, in a struggling economy, finding new uses for recycled clothes can be very worthwhile. Who needs a fancy pillow that costs \$100? And why spend double that amount on a Gucci purse? With simple and quick steps, you can turn your favorite old pants into a new pillow or purse that will fit your personal style. Take off those slacks and get ready to craft – read on to learn how to make a recycled pants pillow. Either way, you have a spare pair of pants that you bought because you loved the feel of the fabric or its bold design. Instead of trashing those cherished chinos, try this. A common craft that can be created from recycled pants is pillows, and depending on the style of [Derila Pillow](#) you are looking for, pants can be the perfect material. All you need are the pants, some matching thread, scissors, a sewing machine and some polyester fiber filling or chopped [Derila™ Memory Foam Pillow](#). To make a square pants pillow, first decide how big you want your pillows to be.

Cut two even squares from the fabric, leaving a half-inch (1.3 cm) margin around the size of the pillow for the seams. Align the fabric squares on top of each other. Make sure that the sides of each square of fabric you actually want to see when the pillow is finished are facing each other. Think of it like an inside-out pillowcase. Sew around three edges of the squares. Be sure to use a half-inch (1.3 cm) seam allowance, which is the space between the seam and the edge of the fabric. Next, sew only half of the fourth side of the squares – you need this “hole” to turn the pillow right side out and stuff it. Once you've turned your pillow right side out, start stuffing. Don't try to cram a large wad in all at once, instead insert small clumps and try to blend those clumps together inside the pillow form as you go.
