**Modern blenders** Once she's older and is ready attempt meats, your regular **psp wizard** will probably struggle with this. We have very nice blender, but if yours is not powerful enough, you can substitute with a food brand. Just cook up several chicken breasts with just water (no seasoning). Then take a completely new pear by way of grocery and place it on the inside blender with a piece or two of chicken, adding enough water to it's smooth (be sure baby is tall enough to eat raw pear that is mushy). Freeze that and use it rather than the baby food aminoacids. Those smell yucky anyway, and the homemade chicken smelled quite appetizing.
