It also mentions that is twin boot Android... How about the HDMI audio? I just acquired the T01 for \$100 for 1 month and then this came out. Sam Butler that's strange as a result of we confirmed with MeegoPad that the T02 will come with official Windows license. This is totally different from the T01 which came with a trial model. Chinavasion good to know. Have you ever heard about dual booting on this in any respect? Was a Bios update launched for the T01 to repair the backspacing drawback in the boot loaders and the UEFI console? Sam Butler No, MeeGoPad doesn't seem to supply this. At the very least to not us. Perhaps, that is one thing that some sellers try to do themselves before they sell?

Tech-savy ppl should be able to do this themselves quiet simply. How is the web site of this manufacturer? Can you obtain the sources of the OS? 18/may/2015 used the coupon for the MeeGoPad T02, was in pre-gross sales. 28/might/2015 finish of pre-gross sales (total was about 30 if i remember properly... So why make a pre-sales order and after tell me that "item is out of stock now"? Thanks gearbest, first and last time unwell purchase something out of your webpage. Thanks for your message. We are actually testing the item (QC test) for you. Please kindly wait 3-5 days for the order to be shipped. NOT activated, and there is no product key. I simply bricked my Meegopad T02 after Windows updates. Somehow, [Flix TV Stick reviews](#) it failed while updating, and there was some discover display screen on the BIOS (which I forgot what the notice says), I clicked Ok and now I solely bought black display screen. Does anyone know learn how to manufacturing unit reset my T02 or make it alive again? Thank you very a lot! Your e-mail address won't be printed.
